The project aims at protecting, promoting and raising awareness of rights of Roma citizens of the EU and thereby at strengthening the EU values, in particular of equality, justice and non-discrimination and thus contributing to building a more democratic EU, where all citizens can enjoy equal access and protection of their rights. ERIACNET4EU will offer the expertise, specific know-how and reliable methodologies to support the implementation of the new EU Roma framework by focusing on strategies and methodologies to prevent and combat Antigypsyism.
