EVENT DESCRIPTION

ERIANET is thrilled to announce that the ERIANET4EU regranting scheme has been extended through the new Framework Partnership Agreement with the European Commission. Building on the achievements and impact generated through the ERIANET4EU initiatives between 2022 and 2025, ERIANET is launching the next iteration of this important initiative. An information session is organised to provide stakeholders and potential beneficiaries with clear guidance, updates, and practical resources, while also offering a comprehensive overview of the scheme and its benefits.

Designed as an interactive and participatory event, the session creates space for dialogue and exchange between ERIANET representatives and participants. It aims to clarify expectations, address questions and concerns, and explore challenges related to the application process, regranting procedures, and grant management. Through active engagement, the session encourages collaboration, identifies gaps, and supports the development of potential solutions, while fostering greater awareness, participation, and continuous improvement of the scheme.

TARGET AUDIENCE

This session is open to Organizational members of ERIANET based in EU . In addition, this event can be relevant for new members registered in the EU Member States willing to apply next year.
